Forecast For Wales
Issued by Met Office Exeter
at 0400 on Monday 14 Jun 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Fresher in the northwest, very warm in the southeast.

Today:
A cloudy morning towards the northwest with some patchy light rain at times. Elsewhere sunny spells. Through the afternoon, cloud spreads south but with occasional sunny spells too. Feeling fresher in the northwest but very warm towards the southeast. Maximum temperature 23 deg C (73 deg F).

Tonight:
Some late sunny spells developing from the north through evening followed by clear spells during the night. A cooler and fresher feeling night than of late, with light winds. Minimum temperature 3 deg C (37 deg F).

Tuesday:
A dry start for all with sunny spells through the morning. Plenty of sunshine through the afternoon and feeling very warm inland. Turning breezy in the far northwest later. Maximum temperature 23 deg C (73 deg F).

Outlook for Wednesday to Friday:
Cloudy with rain in the west, but sunny spells then heavy, perhaps thundery showers later in the east on Wednesday. Sunny spells and possible heavy showers on Thursday. Brighter Friday.
